

Gumnut Crochet

Designs from Aus

Skill Level

- Suitable for beginners
- A beginner who has access to google and u-tube, should be able to complete this project with some research into any stitches or steps which are unfamiliar
- The hardest part of this piece are the wings. Using a stitch marker for each row, should help. I found the wing pattern on google, but it didn't have a designer attached. Many thanks to the designer.

Copyright

Australian League Football:

The first games of Australian football were played with a round ball, because balls of that shape were more readily available. It became customary in Australian football by the 1870s to have an oval shape.

The current Australian football ball was invented by T. W. Sherrin in 1880, after he was given a misshapen rugby ball to fix. Sherrin designed the ball with indented rather than pointy ends to give the ball a better bounce.
