*The koala is a small bear-like, tree-dwelling, herbivorous marsupial which lives on the east coast of Australia. Its thick grey fur protects it from the heat and from rain.*

*Koalas live in societies, and are fussy eaters. They only eat a few varieties of gum leaves which makes them vulnerable when their habitat is destroyed. They are considered to be critically endangered.*

*Fasten off, leaving a long tail on one leg to use to sew the gap between the legs together once joined. Place markers at centre middle of both legs, to mark where the legs will be joined. Legs are joined at the middle centre of each inside leg, with 3 chain between each inner leg*
